CRIMINAL STATISTICS.

The arrangement of these statistics is somewhat different from that adopted in other Crown Colonies and Protectorates. The reason is that in this Protectorate the jurisdiction of the Inferior Courts extends to all native cases, subject in the graver cases to confirmation by the High Court; thus the ordinary distinction between cases tried by the Inferior and Superior Courts does not apply. The use of the ordinary tables would therefore not give the information desired, which it is hoped will be given by the arrangement here adopted.

NOTE—On the first occasion of filling up these forms, a plan of each floor of the hospital should be sent home. Each such plan should be the size of the Blue Book sheet. In subsequent years, if there has been no material alteration in the buildings, or addition to them, it will be sufficient to refer to the Blue Book in which the plans were sent home. If the buildings are afterwards altered or enlarged, fresh plans should be sent home with the Blue Book of the year in which the alterations were effected.
